FORMATION CAPITAL CORPORATION

WALLACE CREEK PROJECT

LEMHI CO. IDAHO

CLAIM MAP

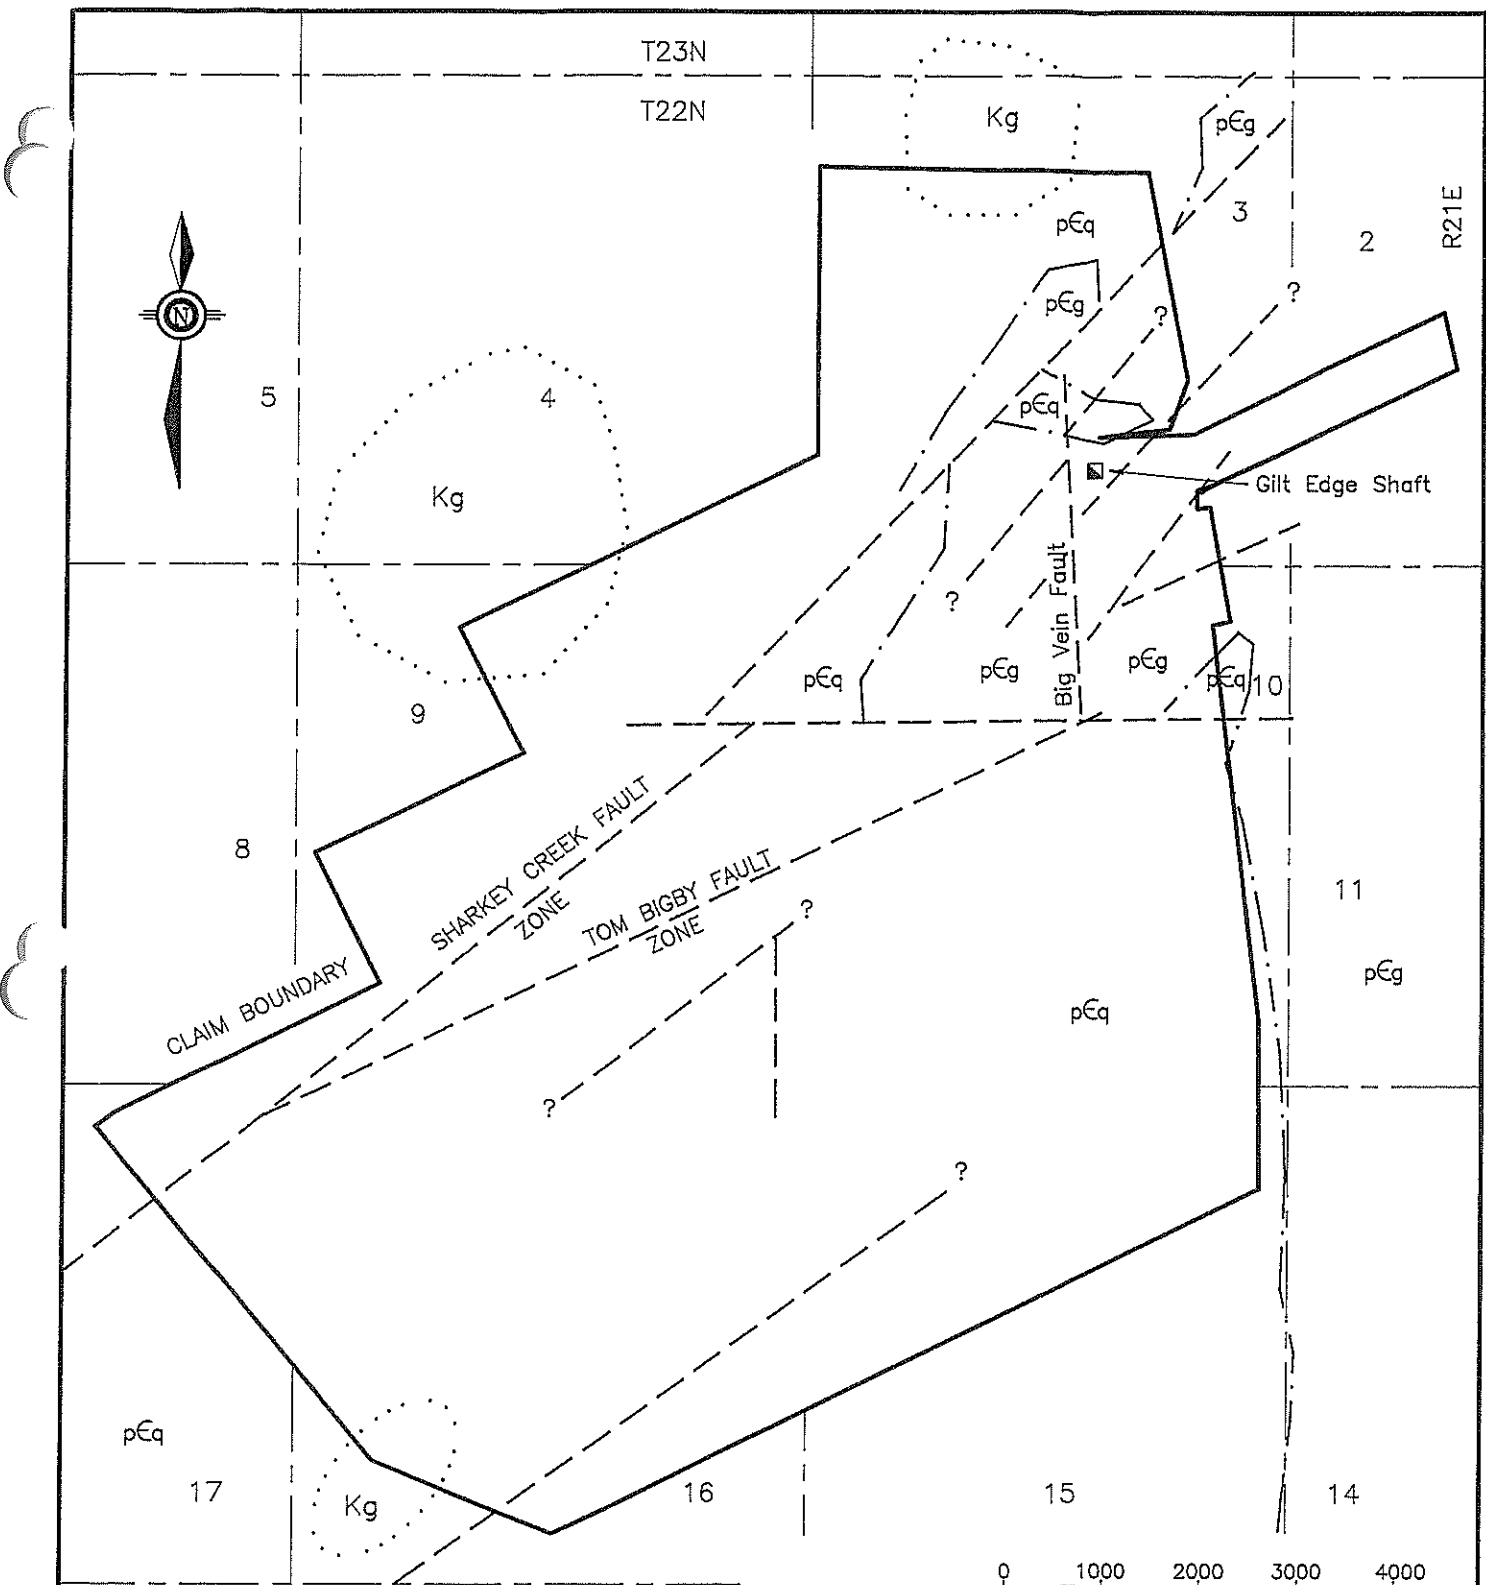

SCALE: 1:24,000

DATE: JAN./90

DRAWN BY: GEO-COMP

FIGURE: 4

LEGEND

Kg Granitic Stock(?) (Cretaceous)—Idaho Batholith related buried intrusions (inferred by airborne magnetometer)

pЄg Adamellite (PreCambrian)—Diamond Creek stock, coarse to medium grained with phenocrysts of orthoclase and biotite

pЄq Metasiltite (PreCambrian)—Upper Middle Yellow-jacket(*) regionally metamorphosed siltstone, tuffs

..... inferred buried contact

— inferred contact

--- fault

* as used in literature, after Gordon Hughes
